

THE PROBLEM

THE WASTE NOBODY WILL TAKE. WE TAKE IT.

Grocers' hardest back-of-house streams — meat trim, bone, chicken, grease — get refused by haulers, landfilled, or left to rot.

WHAT WE DO

ONE PROGRAM. ONE VENDOR. EVERY STREAM.

- 01 Produce, bakery & deli — everyday organics.
- 02 Meat trim, bone & grease — the hard streams.
- 03 Compost or AD — never landfill.

THE DIFFERENTIATOR

Your hardest waste lands in the EPA's “beneficial use” tier.

Sent to compost or anaerobic digestion, meat, bone, and grease count as recovery — soil and clean energy — not landfill.

PROOF YOU CAN PUT IN A FILING.

100%

DIVERTED FROM LANDFILL

0

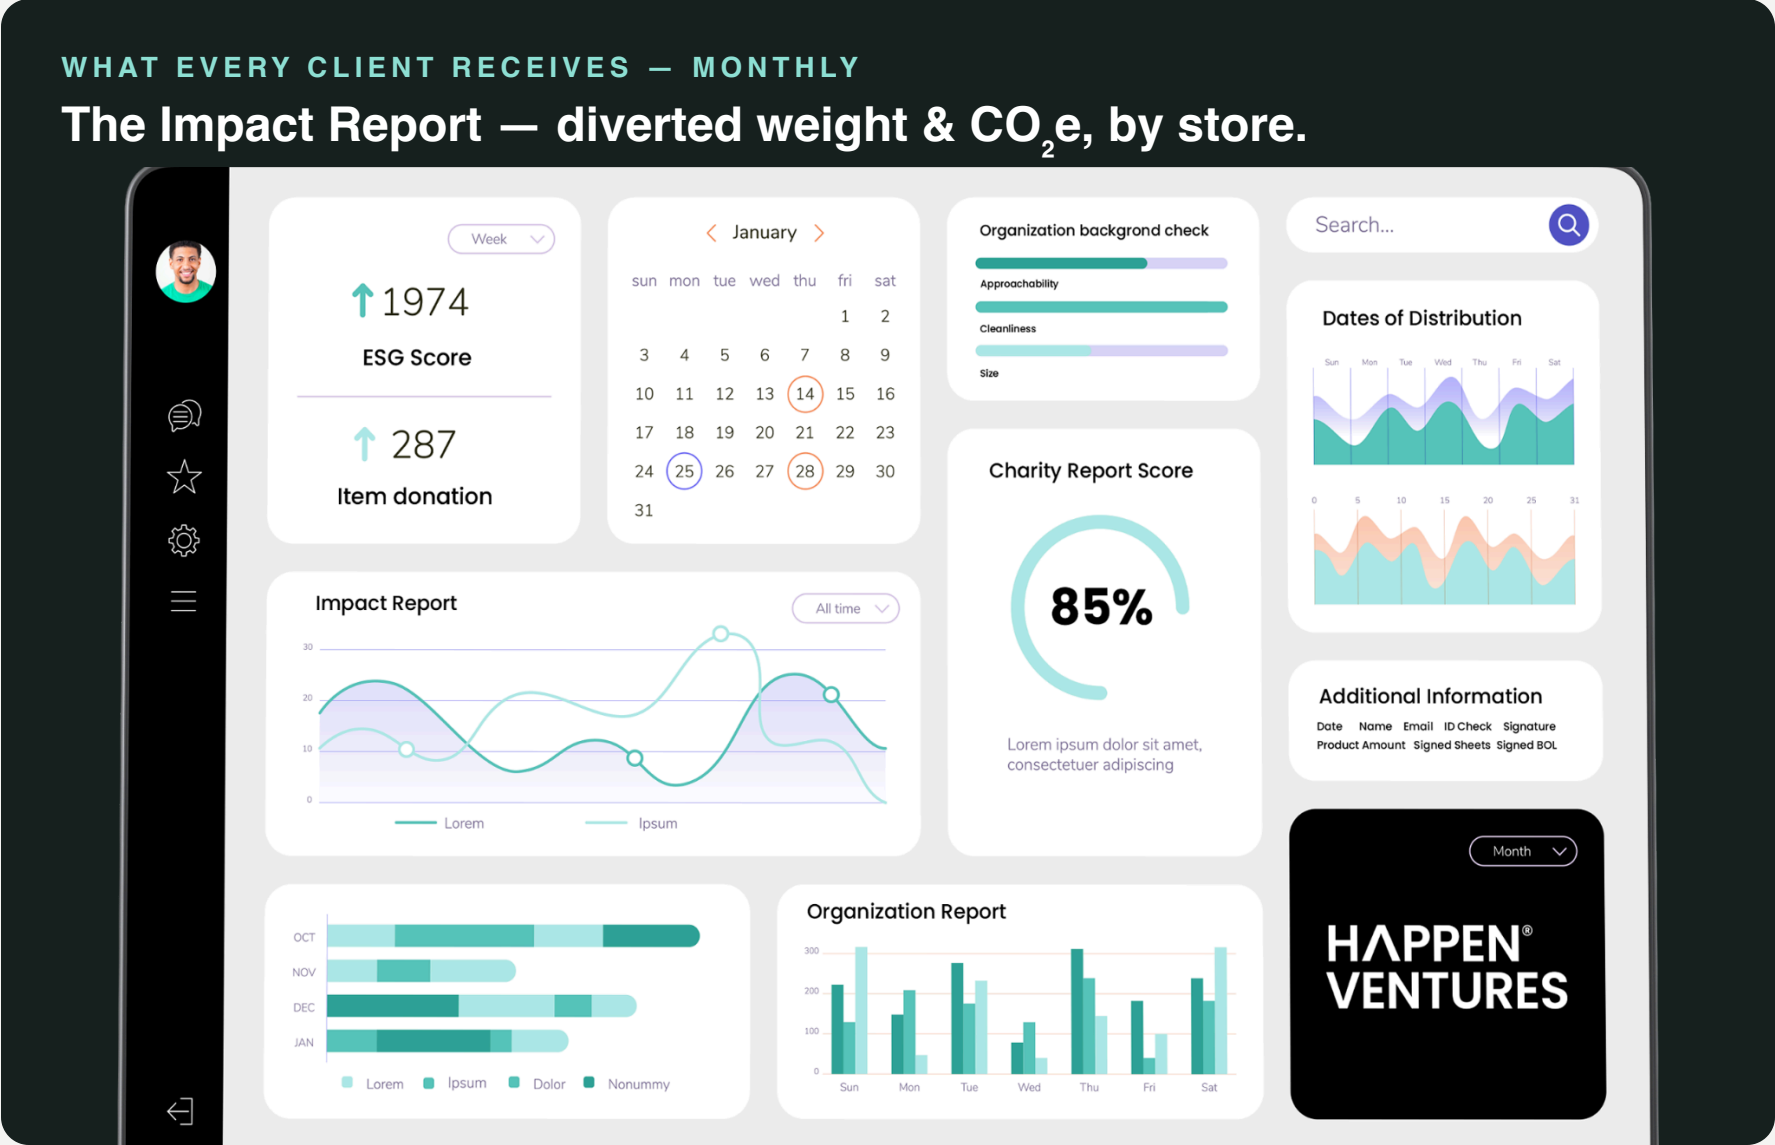

LOADS TO LANDFILL

1

VENDOR, EVERY STREAM

WHAT EVERY CLIENT RECEIVES — MONTHLY

The Impact Report — diverted weight & CO₂e, by store.

COST

LESS THAN YOU PAY NOW.

Clients average ~10% savings — one vendor, no rejection fees, no landfill tipping on your hard streams.

COMPLIANCE

WE CARRY THE MANDATE.

SB 1383, Northeast disposal bans and more — documented and owned end to end.

HOW IT STARTS — LAND SMALL, EXPAND ON PROOF

01 Pilot a few sites

02 Prove clean results

03 Scale the portfolio

LET'S MAKE IT HAPPEN.
